Bid Packages

The Company has advised that they intend to cease printing bid packages starting August 1st 2010. CUPE has filed a policy grievance. If you are unable to get a printed bid package due to shortages, please advise us immediately.

Default Bidding

We are currently entering our 4th year of using this PBS bidding system. It is imperative, by now, that everyone has a default bid in the system so if you miss the bid deadline, PBS has something to process. Occasionally we see operational disruptions such as what occurred in Europe in April. This is a perfect example of when it is beneficial to have a back up bid in place.

If you have any questions or need assistance please contact your Blocking Committee at 604 279-9905 ext 310 or at blocking@local4094.ca
