

PBS Current vs New User Interface – Side by Side

This bulletin reviews the Current User Interface (Current U.I.) compared to the New User Interface (New U.I.) and is meant as an introduction to the New U.I. as well as some of its functionality. Although the New U.I. processes bids the same way as it does right now, it is visually quite different from what we are used to right now.

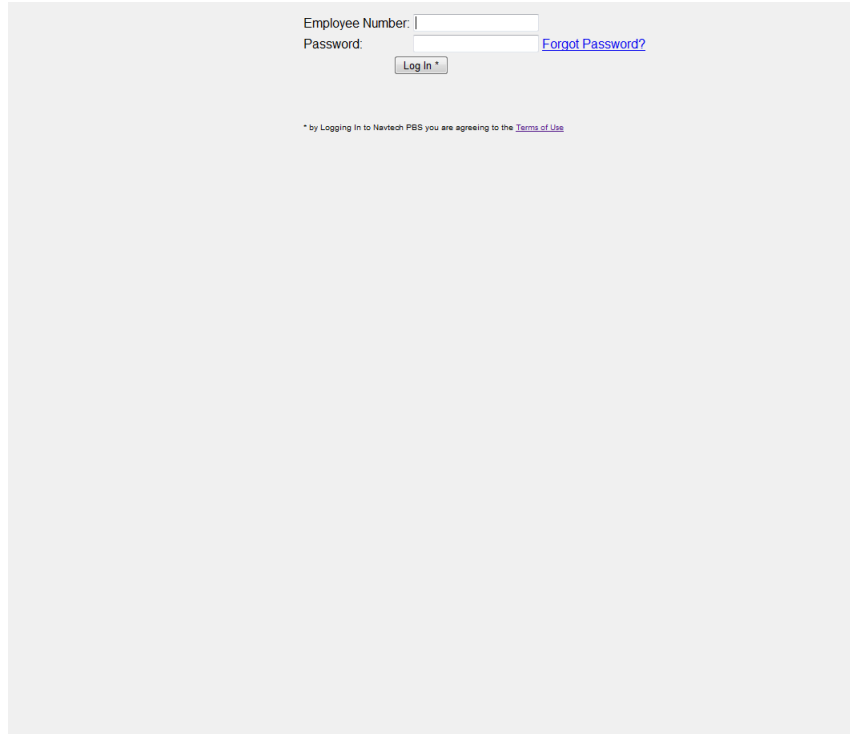

Navigating through the New U.I. will take time and practice. To assist you in making the transition there will be a four (4) month period where both the Current U.I. and the New U.I. will be available for you to bid with. There will also be more information on the New U.I. in bulletins and other tools to assist you.

While the New U.I. does take advantage of a greater number of platforms, including tablets it is not officially supported on all platforms, operating systems and/or all browsers. Additional platform, operating systems and possibly browser support will continue to advance now that PBS will be moving its interface to a newer type of browser. Any issues with “non-supported” systems and browsers may not be able to be corrected.

The new version of PBS uses the same log in information as you currently use (employee number and password).

NOTE: The Select Airline Code box [1] is for the PBS Test Server only and will not be on the version of PBS that you will use.

If for any reason the Select Airline Code box does appear, select “aca” for Mainline or “rga” for Rouge from the list of airlines.

The New U.I. has a more “graphical” look to it.

Options are now along the side of the main screen [1].

The New U.I display will consider the size and/or resolution of the screen/window in which it is displayed.

A laptop or desktop with a high-resolution display will usually display all items. An iPad or lower resolution laptop or desktop may not show all items however missing items may be “summoned” by swiping or clicking on the corresponding tab on the side of the screen [2].

NOTE: As a direct comparison, the bid above in the Current U.I. is identical to the one shown in the New U.I.

Colours are used to assist in easy identification of different bid types and bid lines.

Start Pairings bid groups are now more easily visible as they are combined [1] and defined vertically (start of bid group and end of bid group) by a light blue background.

Start Reserve bid groups [2] only have the light blue background at the start of the bid group.

User added bid groups/lines are numbered [3] and system default bid groups/lines are grayed out and not numbered [4].

PBS Current vs New User Interface – Side by Side

Bids Tab
New U.I.

The image displays three stacked screenshots of the PBS Bids Tab interface, illustrating the new user interface (U.I.) for different bid types. Each screenshot shows a top header with the bid period, confirmation number, and user information. Below the header is a tab bar with 'Current', 'Default', and 'Training' options. The main area contains a 'Start Bid Group' button and a 'Start Pairings' button. The 'Training' tab is highlighted in the third screenshot.

Bid types are clearly visible and identified by colour:

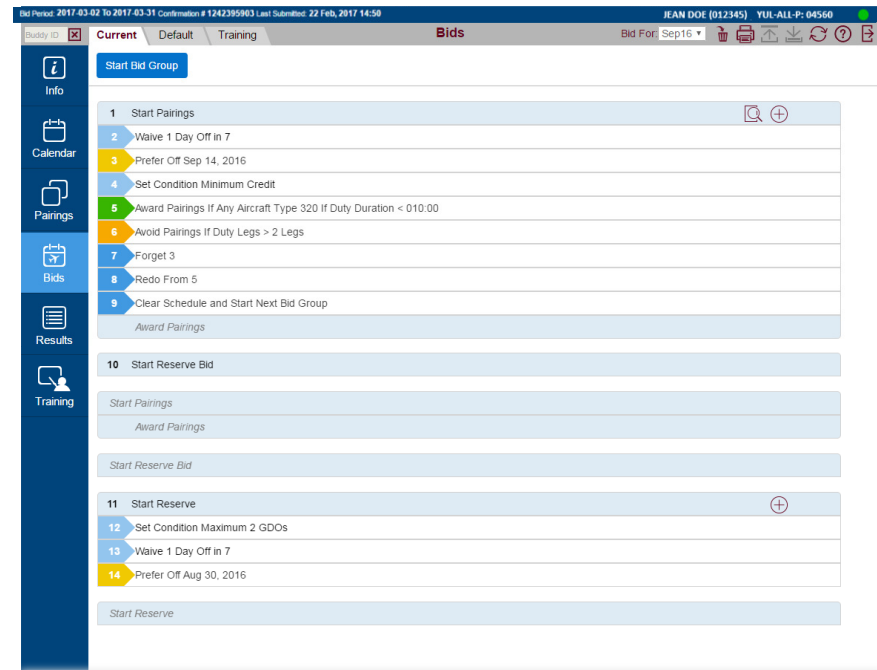

- Current [6]: White background
- Default [7]: Yellow background
- Training [8]: Green background

NOTE: When “hovering” over the icon for most of these options a “tag” will appear with the icon name

PBS Current vs New User Interface – Side by Side

Bids Tab – Bid Preference Editor

Current U.I.

The Current layout of PBS opens up a new window in your browser when adding or editing new bid lines. The bid line options are arranged vertically where “sub options” like Any Aircraft are displayed below the option.

The screenshot shows a web application titled "Add Bid Preference To Current Bid For Jan17 - YUL-ALL-P". It features a horizontal menu with buttons: "Start Bid Group", "Prefer Off", "Award Pairings", "Avoid Pairings", "Instruction", "Set Condition", and "Waive". The "Award Pairings" button is selected. Below the menu, there is a section titled "Award Pairings" with an "Add" button. Under this section, there are two main options: "All Aircraft Type" (unchecked) and "Any Aircraft Type" (checked). Below "Any Aircraft Type", there is a radio button selection for "If" (selected) or "If Not". A list of aircraft types is displayed: 319, 320, 321, 330, 767, 777, 787, and E90. At the bottom, there are three more options: "Allowance Amount", "Average Daily Credit", and "Charters", each with a checkbox.

New U.I.

The New U.I. keeps everything in the same window on your screen. As such, we navigate vertically as with the Current layout however, to save screen space, the options on the Bid Preference Editor may change to reflect the specific preference that you are choosing.

Not to worry, although strange at first there are visual cues to assist you in navigating through the process if you know where they are.

The screenshot shows a modern web application interface. At the top, there is a header bar with user information: "JEAN DOE (012345) YUL-ALL-P: 04560". Below the header, there is a navigation bar with tabs: "Current", "Default", and "Training". The "Current" tab is selected. The main content area is titled "Bids" and shows a "PairingProperty is empty" message. There are several buttons: "Start Bid Group", "Start Pairings", "Edit in Progress", "Award Pairings", "Start Reserve Bid", and "Start Reserve". On the right side, there is a sidebar with a list of options: "All Aircraft Type", "Any Aircraft Type", "Allowance Amount", "Average Daily Block Time", "Average Daily Credit", "Charters", "Deadhead Legs", "Depart On", "Duty Duration", "Duty Legs", "Employee", "Enroute Check-In Time", "Enroute Check-Out Time", "Landings In", "Layover", "Position", "Sit Length", "TAFB", "Time Off", "Pairing Check-In Time", "Pairing Check-Out Time", and "Position Model Placeholder".

To illustrate this, in the following example, we will create a simple bid line: Award Pairings If Any Aircraft Type 330.

PBS Current vs New User Interface – Side by Side

Bids Tab – Bid Preference Editor

New U.I.

NOTE: Screen shots have been cropped to save on space.

The New U.I. keeps everything on one screen. Bid lines are created in the Bid Preference Editor [1]. The Bid Preference Editor is not always displayed. It appears when you are adding a new bid line or editing an existing bid line.

The New U.I. will still display bid line options vertically in the Bid Preference Editor however “sub options” are displayed in a list of their own as preferences are selected. In this example we have selected *Award Pairings* [2], which brings up the Award Pairings preferences [3].

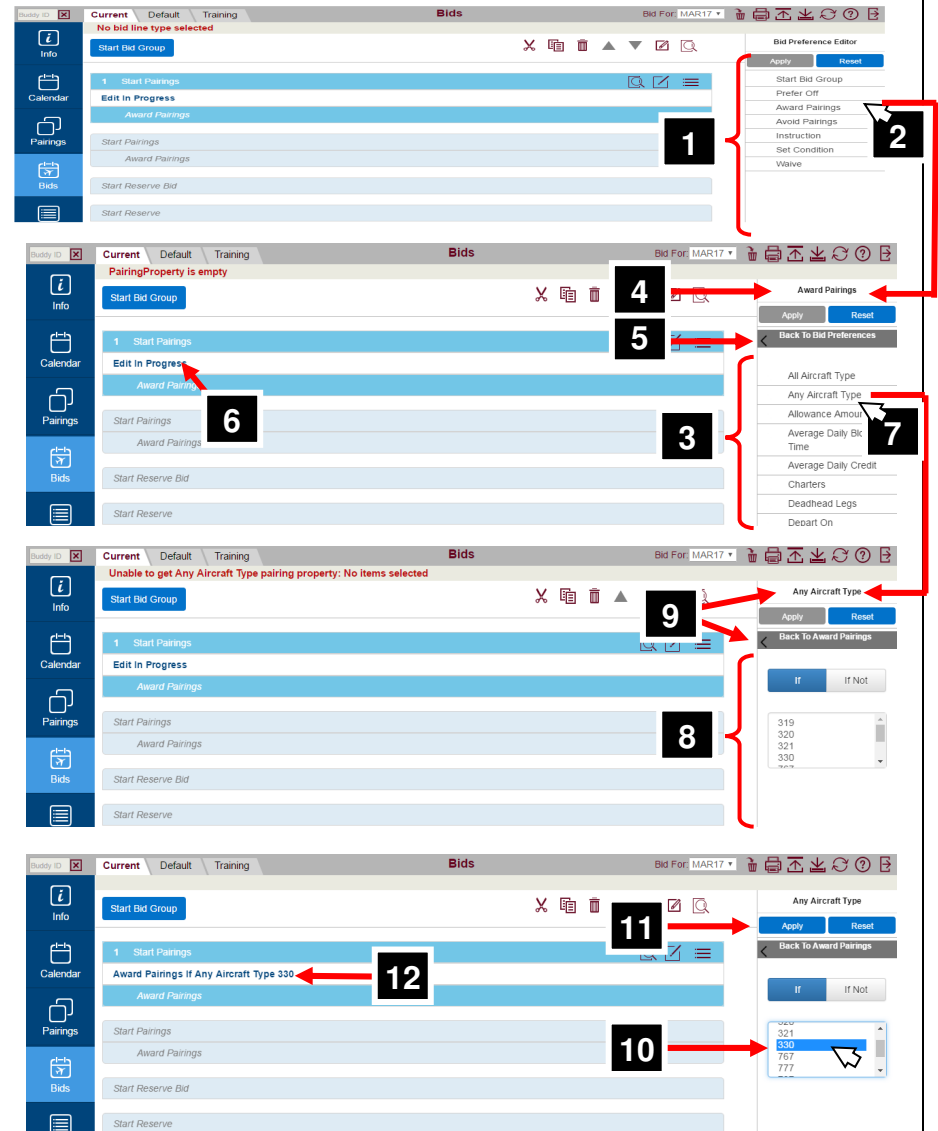

To assist you in building your bid line(s) the header [4] will indicate which preference overlay is being displayed. Navigation aids [5] will be displayed in the Bid Preference Editor and on your bid sheet as you build your bid line. PBS will also display your progress in building your bid line as you move from one preference to another. Note that although “Edit in Progress” or a partial bid line appears on your bid sheet [6] there is no bid line number associated with it. This serves as a note of your progress in building your bid line.

We will continue our example by requesting *Any Aircraft Type* [7] which brings up the Any Aircraft Type preferences [8].

Again, navigation information is shown in the Bid Preference Editor [9].

Now that we are at Any Aircraft Type we may select 330 [10].

You will notice that once you have selected an aircraft the Apply [11] button becomes active and you now see a preview of the bid line that you are building [12] on your bid sheet. This is helpful when you are building bid lines with multiple parameters.

PBS Current vs New User Interface – Side by Side

Bids Tab – Bid Preference Editor

New U.I.

The final step in creating a bid line is to select Apply. Once that is done the bid line will have a bid line number [13]. While the Bid Preference Editor is active you will still see the makings of the bid line [14] without a bid line number.

This information is still kept in the Bid Preference Editor and may be used to create multiple bid lines with similar parameters.

If you use the navigation within the Bid Preference Editor to go back you will see a checkmark [15] on any parameters that have been used for the bid line.

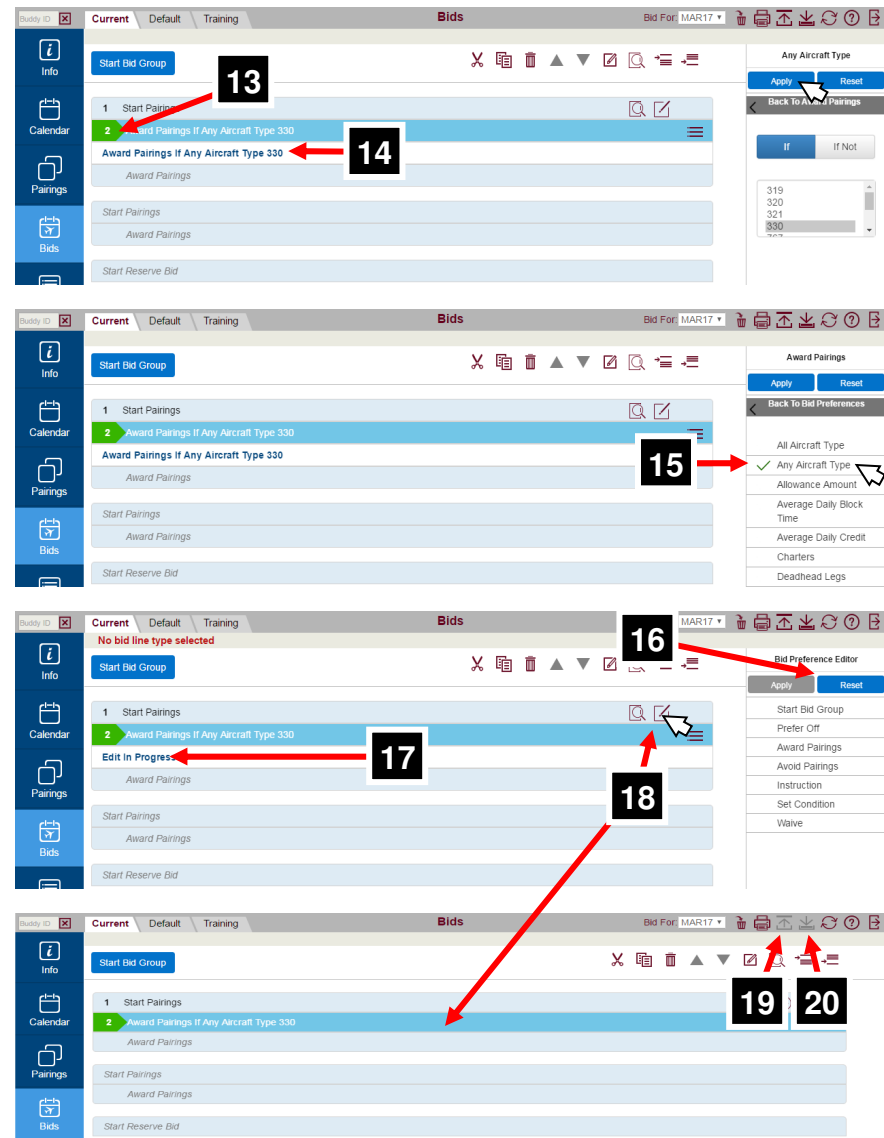

If you are done with this type of bid line and/or want to start a new type of bid line you may select Reset [16]. Since the Bid Preference Editor is still open, Edit in Progress [17] will be displayed as a bid line preview on your bid sheet.

If you have finished entering bid lines, selecting the Close Editor icon [18] will close the Bid Preference Editor. The bid line preview will disappear as the Bid Preference Editor has no data stored in it.

... and you will be redirected to your bid sheet.

Remember that you must submit [19] your bids for them to be used for your block awards. If you are off-line then you may save [20] your bids to the device that you are working on.

The icons are grayed out when not available.

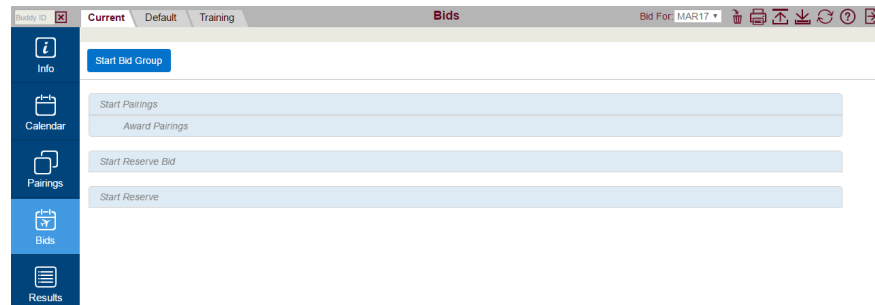

PBS Current vs New User Interface – Side by Side

Bids Tab – Adding Bid Group and Bid Lines

New U.I.

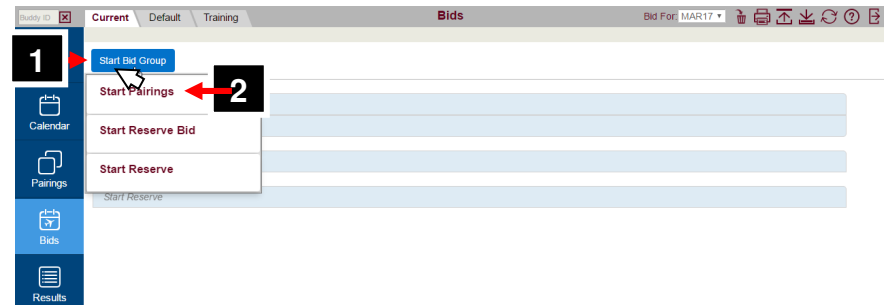

We will now go through an example of creating a bid group (Start Pairings) and a couple of bid lines.

NOTE: Screen shots have been cropped to save on space.

Starting from a blank bid.

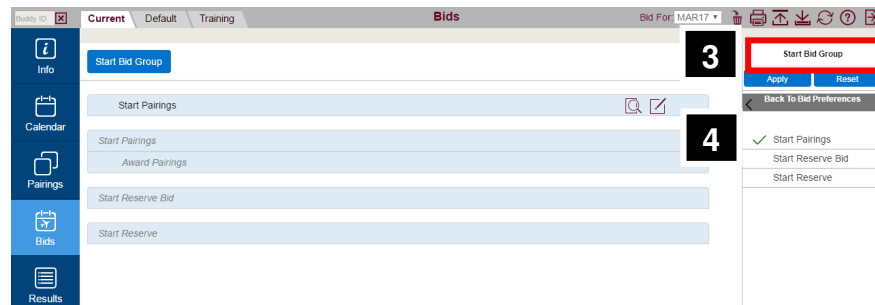

We will create a Start Pairings bid group, a Prefer Off bid line and two Award Pairings bid lines.

Click on Start Bid Group [1].

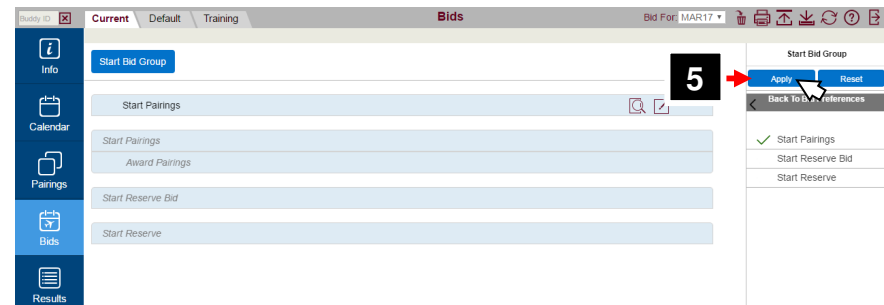

Click on the desired bid group that you want to add to your bid.

In this example we want a Start Pairings bid group so we select Start Pairings [2].

The Start Bid Group options will appear in the Bid Preference Editor [3].

The selected Start Bid Group option will be selected (green check mark) [4].

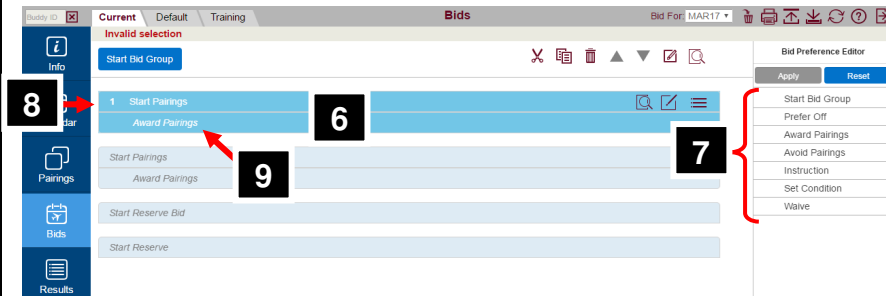

Click on Apply [5] to add the selected bid group type to your bid.

PBS Current vs New User Interface – Side by Side

Bids Tab – Adding Bid Group and Bid Lines

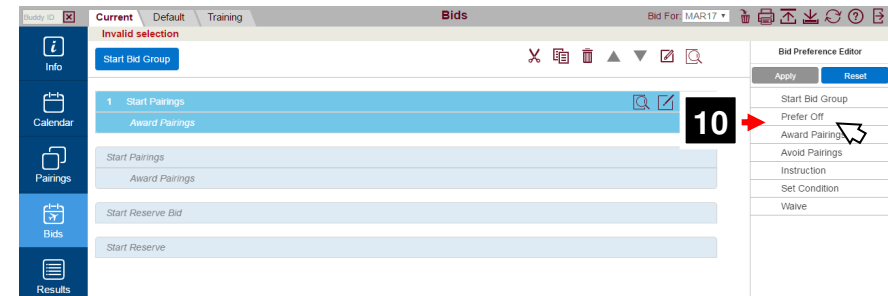

New U.I.

A Start Pairings bid group [6] has been added to your bid sheet.

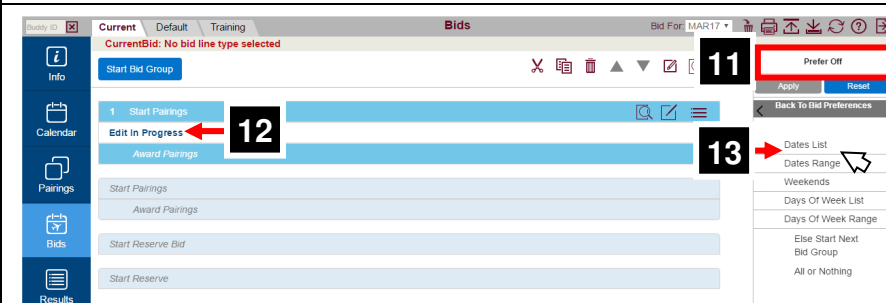

NOTE: The Bid Preference Editor will display the main bid options [7].

NOTE: As a “user added” bid the Start Pairings bid group will show a bid line number [8] and as with all Start Pairings bid groups, an embedded Award Pairings bid line [9] will be added.

We will add a Prefer Off March 6th bid line.

Select Prefer Off [10].

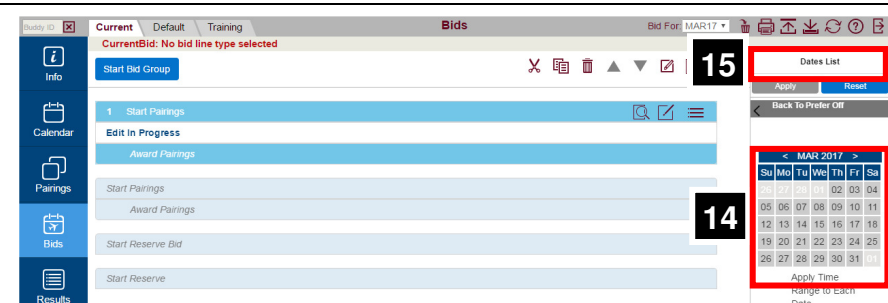

As we are in the Prefer Off options, Prefer Off [11] will appear above the Bid Preference Editor.

As we work in the Bid Preference Editor, PBS will show information in the bid line preview [12].

We will add a specific date in our Prefer Off bid line.

Select Dates List [13].

A calendar [14] will be displayed.

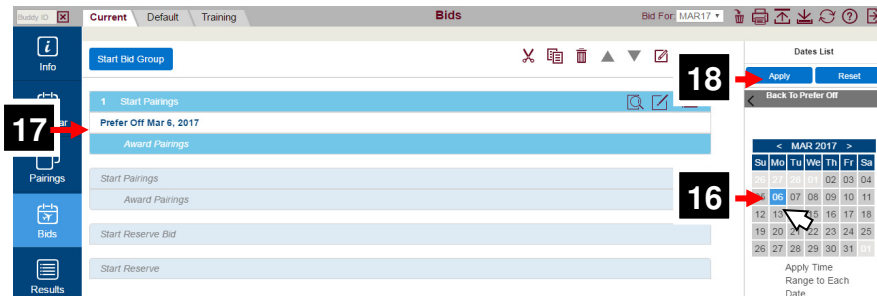

NOTE: Since we are now in the Dates List portion of the Prefer Off preference in the Bid Preference Editor, Dates List [15] is displayed.

This type of navigation information is updated depending on what option/preference you are working on.

PBS Current vs New User Interface – Side by Side

Bids Tab – Adding Bid Group and Bid Lines

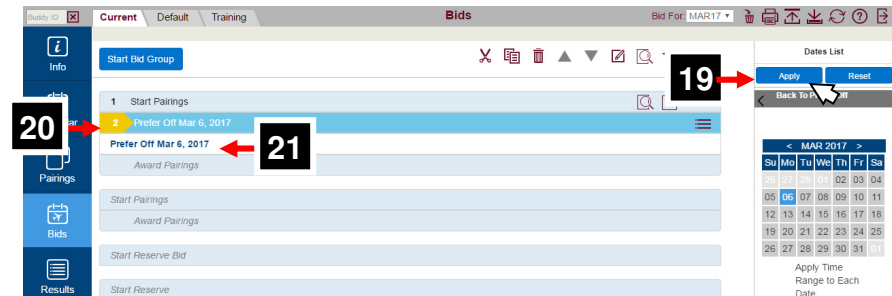

New U.I.

Select the desired date [16].

The bid line preview will show the options that have been selected so far [17].

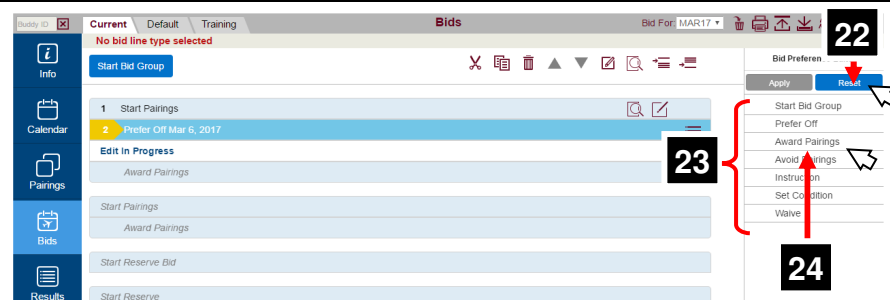

Once a bid line is possible, the Apply button [18] will be available.

Once you are satisfied with the bid line, select Apply [19].

The bid line will appear on your bid sheet [20].

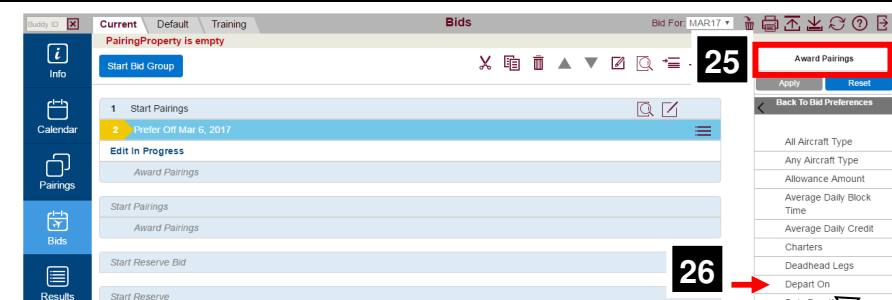

NOTE: The bid line preview will still contain the information that appears in the Bid Preference Editor [21]. This allows the ability to quickly add many similar bid lines.

The next bid line we want to add is: Award Pairings If Departing On March 16th If Layover CDG.

Since we are done with adding Prefer Off bid lines at this point, we will select Reset [22] to clear everything in the Bid Preference Editor and return to the main options [23].

From the main options, we will select Award Pairings [24].

Since we are in Award Pairings, Award Pairings will be displayed in the Bid Preference Editor [25].

From the Award Pairings options, select Depart On [26].

NOTE: If your desired option is not displayed you may scroll down for more options.

PBS Current vs New User Interface – Side by Side

Bids Tab – Adding Bid Group and Bid Lines

New U.I.

The screenshot displays the Ariba Bids interface. The top navigation bar includes tabs for 'Current', 'Default', and 'Training'. A message at the top states: 'Unable to get Depart On pairing property: No items selected'. The main content area is divided into two sections: 'Start Bid Group' and 'Award Pairings'. The 'Start Bid Group' section is highlighted with a red box and a red arrow pointing to the 'Start Bid Group' button. The 'Award Pairings' section is highlighted with a red box and a red arrow pointing to the 'Award Pairings' button. The right sidebar contains options for 'Dates Range', 'Dates List', and 'Days Of Week'. The interface also includes a top navigation bar with 'Bids' and 'MAR17' tabs, and a bottom navigation bar with 'Info', 'Calendar', 'Pairings', 'Bids', and 'Results' tabs.

Since we are in the Depart On option, Depart On will be displayed in the Bid Preference Editor [27].

Select Dates List [28].

26	27	28	29	30	31	

30

Since we are in the Dates List option, Dates List will be displayed in the Bid Preference Editor [29].

A calendar [30] will be displayed.

The screenshot shows the 'Bids' management interface. The top navigation bar includes 'Ready ID', 'Current', 'Default', 'Training', and 'Bids'. The 'Current' tab is active. The main content area lists bids with columns for 'Start Pairings', 'Award Pairings', and 'Award Pairings if Departing On Mar 16, 2017'. A sidebar on the left contains navigation icons for 'Info', 'Pairs', 'Bids', and 'Results'. A calendar for March 2017 is displayed on the right. Red arrows and callout boxes highlight specific elements: 32 points to the 'Award Pairings' column header, 33 points to the 'Dates List' button, 34 points to the 'Back To Depart On' button, and 31 points to the calendar grid.

Select the desired date [31].

The bid line preview will show the options that have been selected so far [32].

Once a bid line is possible, the Apply button [33] will be available however since we will be adding more options to this bid line, select Back To Depart On [34]

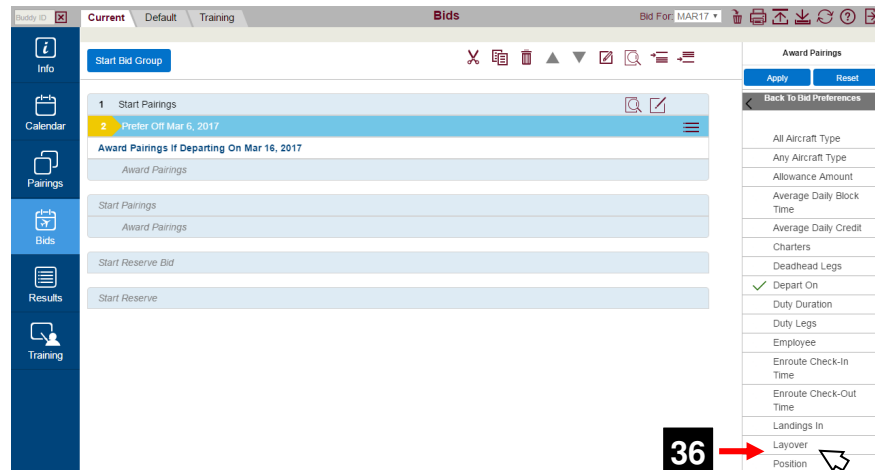

The screenshot shows the Oracle Primavera P6 software interface. The top navigation bar includes 'Current', 'Default', and 'Training' tabs, with 'Current' selected. The 'Bids' section is active, showing a 'Bid For' dropdown set to 'MAR17'. The left sidebar contains navigation icons for 'Info', 'Calendar', 'Pairings', 'Bids', and 'Results'. The main area displays a list of award pairings, with the second item highlighted in blue. A red arrow points from the number '35' in a black box to the 'Back To Award Pairings' button in the right sidebar. The right sidebar also includes buttons for 'Apply', 'Reset', and 'Back To Award Pairings', along with sections for 'Dates Range', 'Dates List', and 'Days Of Week List'.

Select **Back to Award Pairings [35]** to go back to the Award Pairings options.

PBS Current vs New User Interface – Side by Side

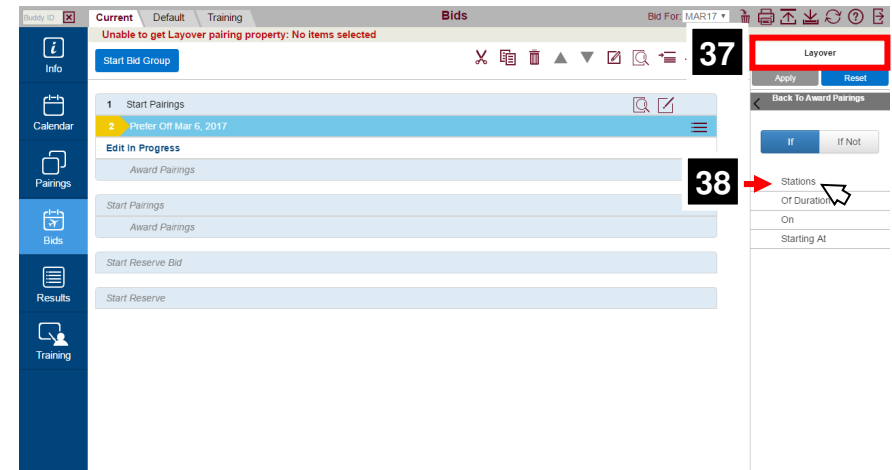

Bids Tab – Adding Bid Group and Bid Lines

New U.I.

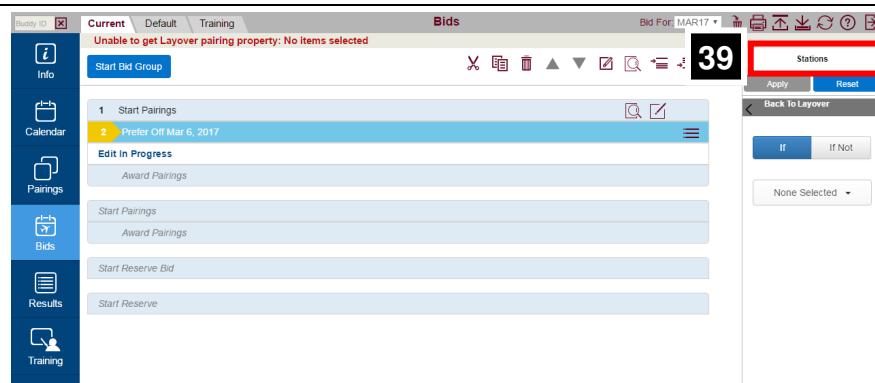

From the Award Pairings option, select Layover [36].

NOTE: Since we have already modified the Depart On option, a green checkmark is next to it to indicate that there is information there.

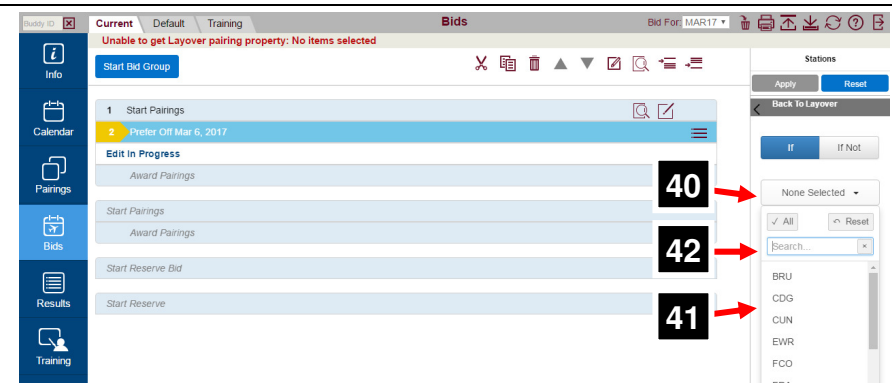

Since we are in the Layover option, Layover will be displayed in the Bid Preference Editor [37].

Select Stations [38].

Since we are in the Stations option, Stations will be displayed in the Bid Preference Editor [39].

Select None Selected [40] to display a list of the layover stations [41] at your base. Scroll down the list to find your desired layover station.

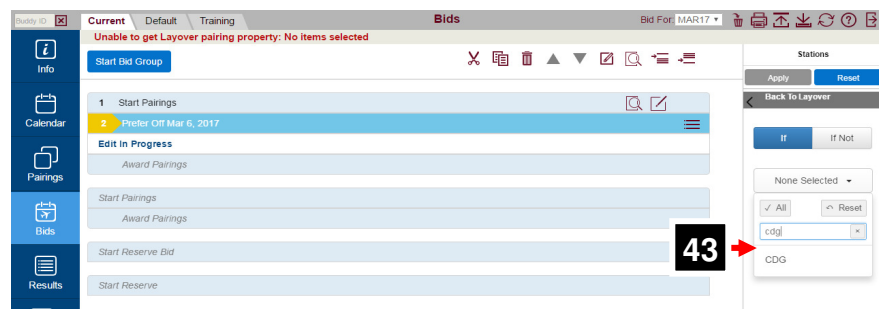

A Search box [42] is also available should you prefer to type in the three-letter airport code.

NOTE: As letters are typed into the Search Box stations with that/those letter (or letters) will be available in the list.

PBS Current vs New User Interface – Side by Side

Bids Tab – Adding Bid Group and Bid Lines

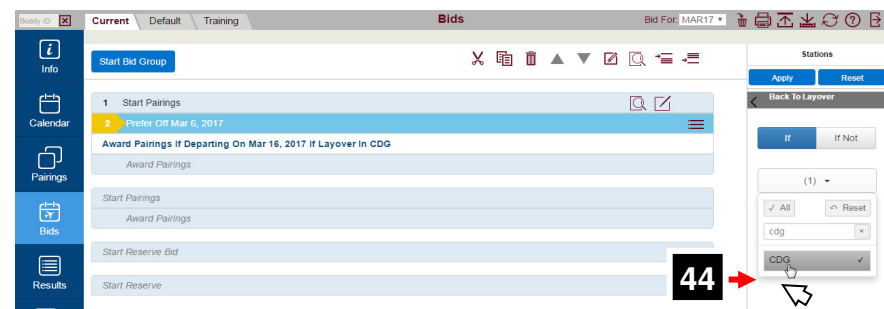

New U.I.

Since we want a layover in Paris we can simply type cdg in the Search box.

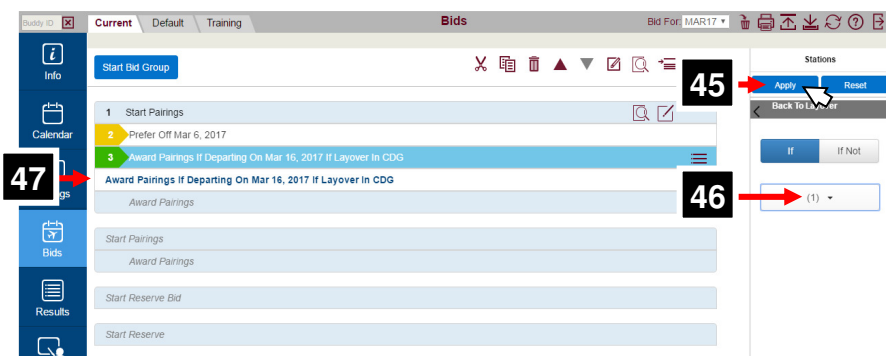

Station CDG will be displayed [43].

NOTE: We could also have scrolled through the list of stations and selected the one(s) that we want as part of a bid line.

Select the desired station, CDG [44].

The selected station will be highlighted and a check mark added to the right.

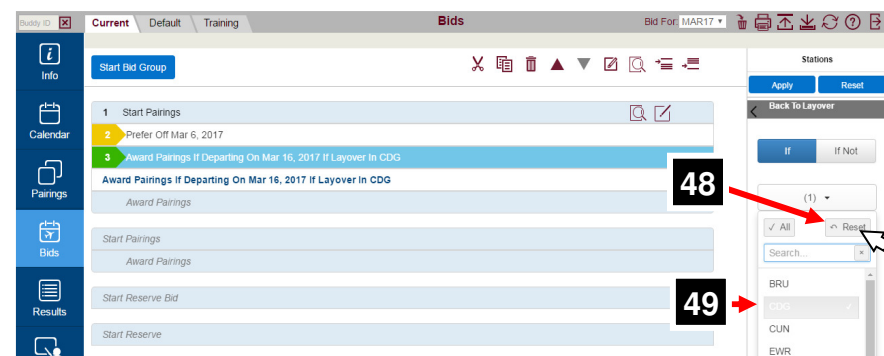

Click on Apply [45] and the new bid line has been added to your bid.

A “1” is displayed [46] to indicate as a reminder that one station is selected in the list. The number displayed will coincide with the number of selected stations.

The information used to create the bid line is still shown in the preview below the new bid line [47].

NOTE: There is no bid line associated to the preview, its purpose is to facilitate adding multiple bid lines that share similar parameters.

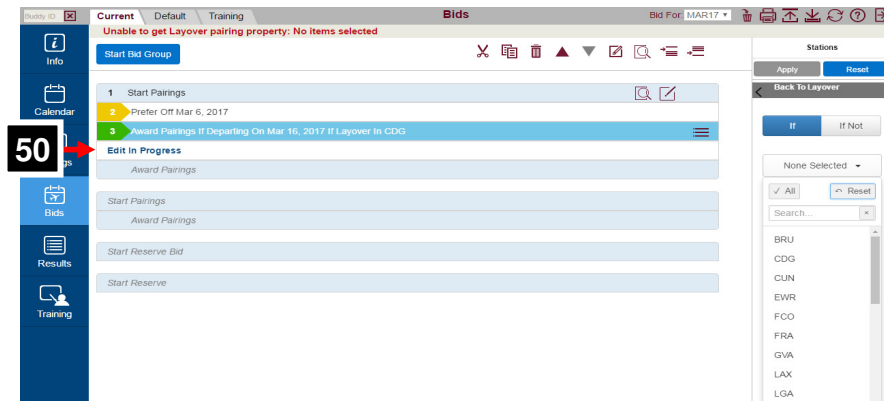

For example, our next bid line will now ask for a layover in FRA on the same date.

CDG is still selected. Since we do not want this station click Reset [48] to clear any stations that are selected. Clicking on a selected station will also de-select it [49].

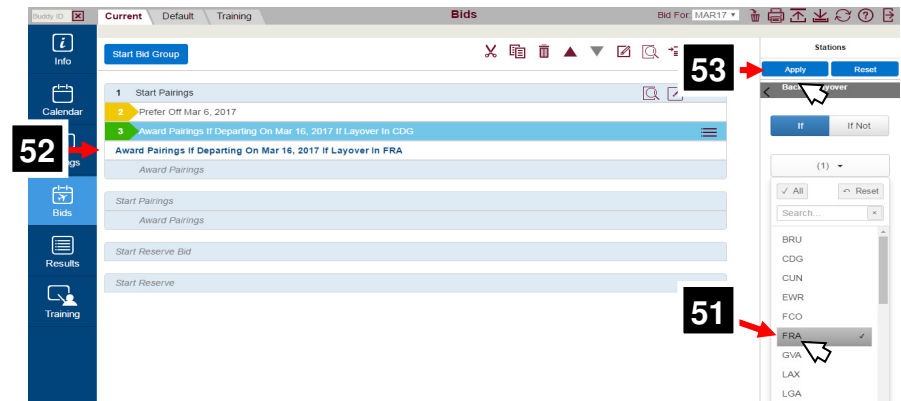

PBS Current vs New User Interface – Side by Side

Bids Tab – Adding Bid Group and Bid Lines

New U.I.

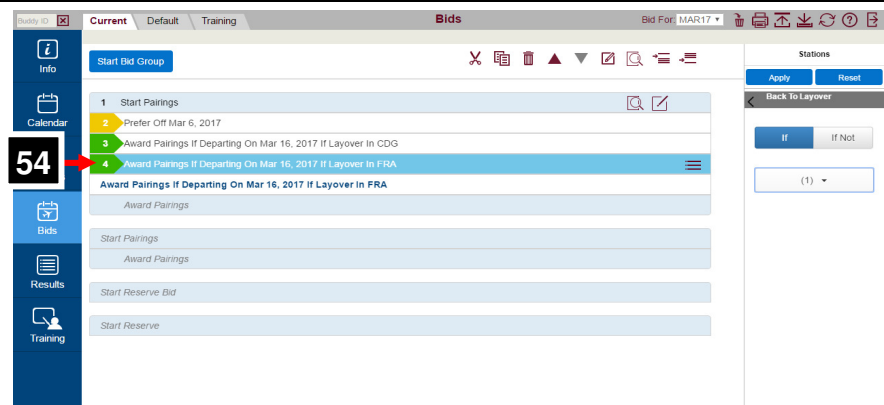

NOTE: With the Stations reset, Edit in Progress [50] is displayed.

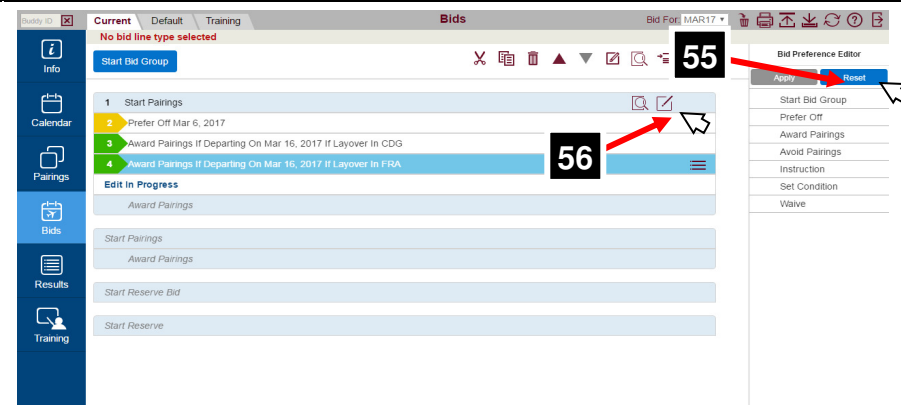

We can now scroll down (or search for) FRA and select it [51].

The preview [52] now shows the potential bid line.

NOTE: The potential bid line in the preview is not part of your bid yet. To add it to your bid you must click on Apply [53].

Once Apply has been clicked the bid line is added to your bid [54].

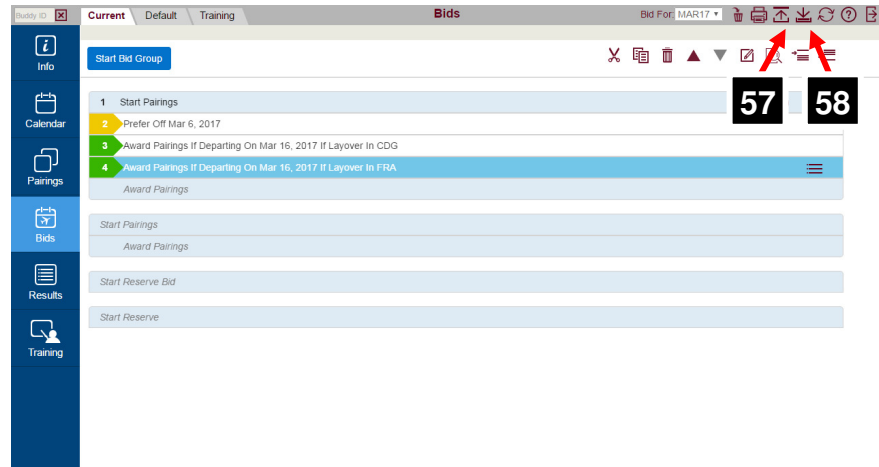

To clear all the parameters that have been selected and start a completely different bid line, it is best to use the Reset button [55].

Select the Close Editor icon [56] to close the Bid Preference Editor if you are done with entering bid lines.

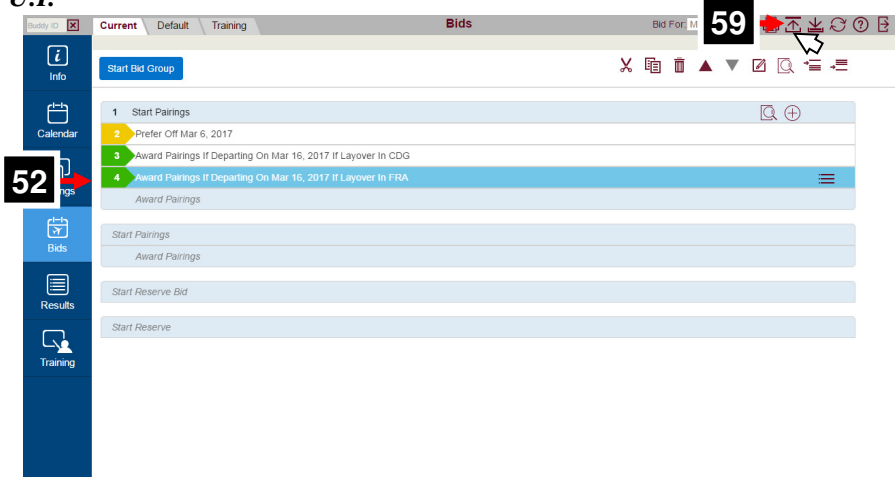

PBS Current vs New User Interface – Side by Side

Bids Tab – Adding Bid Group and Bid Lines

New U.I.

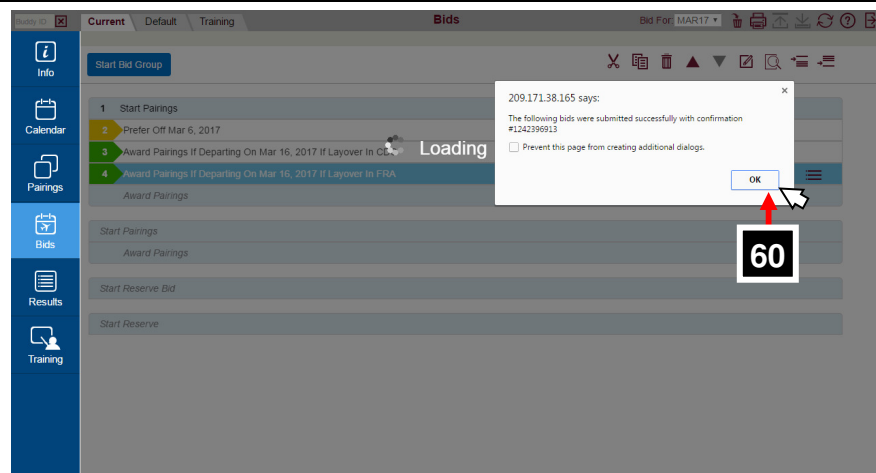

NOTE: Remember to Submit [57] (if on-line) or Save [58] (if off-line) your bids regularly.

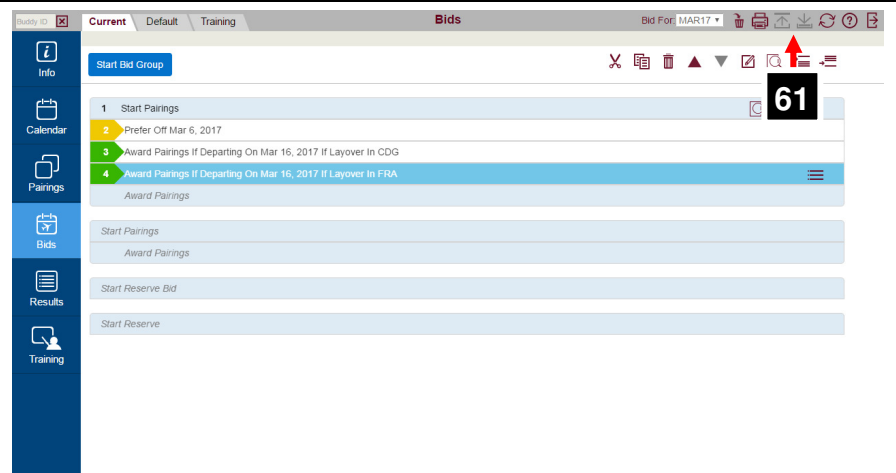

We will submit our bids [59].

NOTE: When bids are saved or submitted ALL bid sheets (Current, Default & Training) are saved or submitted regardless of what bid sheet is displayed.

A pop up is displayed when bids are submitted. Click on OK [60] to close it.

When bids have been submitted the Submit and Save [61] icons are grayed out until any modifications are made to the bid.

PBS Current vs New User Interface – Side by Side

Bids Tab – Buddy Bid (Mainline Only)

New U.I.

The image shows three sequential screenshots of the 'Bids Tab – Buddy Bid (Mainline Only)' interface, illustrating the steps to add a buddy:

- Screenshot 1:** Shows the 'Buddy ID' field with an 'X' icon to its right. A black box with the number '1' is placed over the 'X'.
- Screenshot 2:** Shows the 'Buddy ID' field with a checkmark icon to its right. A black box with the number '2' is placed over the checkmark.
- Screenshot 3:** Shows the 'Buddy ID' field with the number '012345' entered and a checkmark icon to its right. A black box with the number '3' is placed over the '012345'.

Each screenshot also shows tabs for 'Current', 'Default', and 'Training', and a blue 'Start Bid Group' button.

To create a Buddy Bid:

Go to the top left of the bid sheet [1]

Click on the “X” to the right of the Buddy ID box [2]. The “X” will turn into a check mark.

Enter the buddy’s employee number [3].

Start your bid.

NOTE:

Buddies are “tied” to the bid type where they are added so ensure that you add your buddy to the bid that you will be using (Current or Default).

For example: If you add your buddy only to your Default bid and use your Current bid for that bid period then PBS will not see your buddy since for that month your Current bid was used.

PBS Current vs New User Interface – Side by Side

<i>Current U.I.</i>	<i>New U.I.</i>
 <p>The screenshot shows the 'NAVTECH PBS' interface. At the top, there are tabs: 'Info', 'Calendar', 'Bids', 'Results', and 'Settings' (which is highlighted). To the right of these tabs are buttons for 'Pairings', 'Training Patterns', 'Help', 'Print', and 'Log Out'. Below the tabs, the 'Settings' section is titled 'Navtech PBS Desktop'. It contains text explaining that the desktop version can be installed on a computer to perform actions even when not connected to the Internet. It also states that the desktop version is only available to Windows users and requires Microsoft 3.5 .Net Framework. A link for 'Navtech PBS Desktop Installer' is provided. Below this, it says that after installation, a valid configuration file must be provided to initialize server settings. A link for 'Navtech PBS Desktop Configuration File' is provided. At the bottom of the configuration file link, there is a text box containing the text 'PAUL BOUCHARD (009410) - P: 05710'. At the very bottom of the page, there is a small copyright notice: 'Copyright © 2005-2016 Navtech Systems Support Inc. - Version: CLASS-16-3-3'.</p>	<p>There is no equivalent to the “Settings” tab in the New U.I.</p> <p>The Settings Tab was mainly to download the PBS Desktop Bidder which has been incorporated into the New U.I.</p>

All of the pairings are displayed in the Pairings tab.

Rather than searching you will “filter” the list for the pairings that you want to see. The result is like a search.

To begin a filter, click on the Show Filters icon [1].

Select the desired preference (in this example it is *Any Aircraft Type A330*) [3] and click on *Apply* [4].

Once Apply has been selected the pairings with an A330 as any aircraft will be displayed [5].

The filter criteria will be displayed at the top of the Pairing window [6]

In this example, we can see that there are 69 distinct pairing numbers that have an A330 as any aircraft type [7].

PBS Current vs New User Interface – Side by Side

Pairing Search

Current U.I.

The Current U.I. for Pairing Search displays a table of pairings. A pop-up window provides detailed information for a selected pairing (M5006), including flight details, crew, and allowance.

Pairing #	# Days	C/I	C/O	Allowance	Total Credit	L/O Stns	Dates
M5006	4	13:50	14:40	359.21	018.25	YYZ CDG	27
M5007	3	14:50	16:30	239.74	017.42	CDG	30 31

New U.I.

The New U.I. for Pairing Search displays a table of pairings. A pop-up window provides detailed information for a selected pairing (M5006), including flight details, crew, and allowance. Numbered callouts highlight specific features:

- 11: Checkmark icon for selecting pairings
- 9: Pairing number in the list
- 8: Checkmark icon for selecting pairings
- 10: Pairing number in the list
- 14: Pairing number in the list
- 12: 'Back To Pairing Preferences' button
- 13: 'Reset' button

Additional information may be seen by clicking on the pairing number [8] or by selecting the check mark [9] next to the desired pairing or pairings and clicking on the Pairings Report icon [10].

To select all the pairings, click on the check mark [11] at the top of the screen.

To add more than one parameter to the filter, click on *Back To Pairing Preferences* [12] and choose more parameters. To start a new filter, click on *Reset* [13].

NOTE: You may add pairings to your active bid sheet directly from the Pairings tab. To do so select the desired pairings and select either the *Award* or the *Avoid* icon [14].

Download PBS Schedule

How to Import your schedule to an iPhone

1. From PBS download the PBS Schedule [1].
2. From your device, email the ICS file to yourself.
3. From your iPhone, tap the "Mail" icon on the home screen.
4. Tap the name of an email account to view its messages.
5. Tap the email message that has the attached ICS calendar file.
6. Tap the ICS file name in the email message window. A list of events appears.
7. Tap an event then tap "Add to Calendar", choose to which you want to add the event, and then tap "Done".
8. Press the "Home" button. Tap the "Calendar" icon on the iPhone to access your newly imported calendar events.
