Celebrates International Women's Day**

International Women's Day is a global day celebrating the social, economic, cultural and political achievements of women. The day also marks a call to action for accelerating gender parity.

The day is not country, group or organization specific - and belongs to all groups collectively everywhere.

Gloria Steinem, world-renowned feminist, journalist and activist once explained "The story of women's struggle for equality belongs to no single feminist nor to any one organization but to the collective efforts of all who care about human rights."

International Women's Day is all about unity, celebration, reflection, advocacy and action - whatever that looks like globally at a local level. But one thing is for sure, International

Women's Day has been occurring for well over a century - and continue's to grow.
